# 非線形光学結晶による光記録

## Optical data storage using nonlinear optical crystals

Margin for the processing.  
Any text must not be appeared  
here.

○光学太郎<sup>1)</sup> 結晶素子<sup>2)</sup>

Taro Kogaku<sup>1)</sup> and Motoko Kessyo<sup>2)</sup>

The authour's information  
(10pt Times New Roman).

### 1. はじめに

非線形光学結晶を使った光記録<sup>1)</sup>は

The text should be organized with appropriate section titles and clearly describe the  
motivation, principle and methods, results and the conclusion. The abbreviation should  
be defined if it is not commonly used. The font of text should be 10pt Time New Roman.  
The symbols and numerical expressions can be used but please embed these fonts.

22mm
